INTRODUCTION

Graffiti Polyester Paper sets a higher standard for quality, consistency, and performance for a polyester.

A hard-working, affordable synthetic

Graffiti Polyester paper is an engineered prime-grade polyester for protecting your print well beyond what regular papers can provide. These rigid, durable synthetic papers are scuff-free, waterproof, tear-resistant, anti-static, and have excellent alcohol and stain resistance. Perfect for hard-working applications that require durability at an affordable price point.

Compatible with your press

Graffiti Polyester Paper's coatings are designed to help toner anchor to the surface while reproducing vivid color.

This top-coat also helps Graffiti Polyester Paper print with any liquid or dry toner digital press. Our patented Graffiti Coatings are developed to make our rigid synthetics to be cross-platform compatible - for Indigo, Xerox, Ricoh, Canon, Konica Minolta (KM's), and other high-performance digital presses.

**Our High-performance polyester papers
will improve your machine uptime,
reduce headaches, and increase your
margins with their cost-effective price
point.**

Improve your press up-time

Graffiti Polyester Paper has a technically superior surface that will run better than any synthetic on the market. Graffiti Polyester Paper won't melt your fuser; toner fully adheres to the sheet with no wipe-off and will never contaminate your machine. We're so confident of our product performance that we'll come right to your door to run a press test against the leading competitor—we'll even pick up the tab for the competition's sheet.

Options Available

Graffiti Polyester Paper is readily available in the most popular sheet sizes and weights for Indigo, Xerox, Ricoh, Canon, Konica Minolta, and other high-performance digital presses. We also carry Extra Long Sheet (XLS) sizes for Xerox iGen4, iGen5, and Iridesse platforms. In addition.

Graffiti Polyester Paper comes in various finishes, including; White, Metallics, Frosted, Clear, & Canvas.

WHY CHOOSE

Graffiti POLYESTER PAPER

Waterproof

Graffiti Polyester paper is a coated polyester-based substrate that offers superior waterproof properties even in the most adverse conditions. It can withstand up to the most extreme weather conditions.

Rigid & Tear Resistant

Graffiti Polyester Paper offers extra strength and durability when you compare it with other competitors' synthetic products. Extruded polyester provides a solid core making it impossible to tear with your hands.

Grease , Alcohol & Wine Resistant

Whether it's grease, wine, or oil Graffiti Polyester Paper resists it. Graffiti Polyester Paper is perfect for restaurant menus, manuals, plant tags, or any hardworking application where durability is paramount.

Dry Toner & Liquid Toner Compatible

Graffiti Polyester paper is a coated polyester-based substrate that offers superior waterproof properties even in the most adverse conditions. It can withstand up to the most extreme weather conditions.

Low Static & High Heat Resistant

Graffiti Polyester Papers are engineered to minimize static after printing making your post-press work faster and more efficient.

Underwater & Green House Compliant

Our Printed Sheet is perfectly suited for underwater or Outdoor Weather conditions and you can write on the paper with your normal pen or pencil. Ideal for Marine Biologists & Scuba Divers & also for Green House tags, Nurseries & such applications

POLYESTER OPTIONS

Graffiti Polyester Paper is available in variety of coating options

WHITES

Graffiti Whites are white-coated polyester film is an exclusive set of products

- 5 mil (125 mic)
- 8 mil (200 mic)
- 10 mil (250 mic)
- 11 mil (275 mic)
- 14 mil (350 mic)

FROSTED & CLEAR

Coated Films for printing with Digital Presses

- BACKLIT - 8 mil (200 mic)
- FROSTED - 4 mil (100 mic)
- FROSTED - 11 mil (275 mic)
- CLEAR - 4 mil (100 mic)
- CLEAR - 10 mil (250 mic)

METALLICS

Metallics are pearlized durable metallic coatings on polyester

- MIRROR - 8 mil (200 mic)
- GOLD - 8 mil (200 mic)
- SILVER - 8 mil (200 mic)
- ROSE - 8 mil (200 mic)

Graffiti POLYESTER PAPERS – WHITES

Available Sizes

- 8.5" x 11"
- 11" x 17"
- 12" x 18"
- 13" x 19"
- 14.33" x 20.5"
- 14.33" x 26"
- 20.9" x 29.5" – B2 Size

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 5.0 mil (125 mic)
- 8.0 mil (200 mic)
- 10.0 mil (250 mic)
- 11.0 mil (275 mic)
- 14.0 mil (350 mic)

Packing Specifications

Packet Packing:

50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:

500 Sheets / Carton
(10 Self Closing Pouches)

Pallet Packing:

10,000 Sheets / Pallet
(20 Cartons)

Graffiti Polyester Paper (Whites) is Premium grade, Digital Toner coated, both side printable polyester sheets made for strength & durability.

Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses. They are highly recommended for printed materials subjected to extreme environmental conditions. They are 100% waterproof & Tear-resistant and extremely durable.

Product Benefits

- Weatherproof: withstands rain, heat, & outdoor temperature.
- Durable: Tear-Resistant, Stain Resistant & Grease Resistant.
- High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications.
- High-Definition Image Quality: Bright sheets allow high image quality of the finished print job.
- Good Water, and Scuff resistance – prints can be used unlaminated.

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Surface Finish:** Bright White Matte
- **Opacity:** >96%
- **Print Side:** Both Side Printable

Thickness Comparison:

- **5.0 mil** - 125 Microns - 24# Bond
- **8.0 mil** – 200 Microns - 90# Index
- **10.0 mil** – 250 Microns - 80# Cover
- **11.0 mil** – 275 Microns – 90# Cover
- **14.0 mil** – 350 Microns

Graffiti METALLIC POLYESTER

Available Finish

- Pearl Gold
- Pearl Silver
- Pearl Rose Silver

Available Sizes

- 12" x 18"
- 13" x 19"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 8.0 mil (200 mic)

Packing Specifications

Packet Packing:

50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:

500 Sheets / Carton
(10 Self Closing Pouches)

Pallet Packing:

10,000 Sheets / Pallet
(20 Cartons)

Graffiti Metallic Polyester is specially coated polyester films with Pearlized metallic coatings available in Gold, Silver & Rose finish for Digital Toner presses, printable on both sides.

Made of polyester these sheets are made for strength & durability. They are 100% waterproof & Tear-resistant and extremely durable under most extreme conditions. Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses.

Product Benefits

- Pearlized Coatings offer a premium look and feel yet provide durability.
- Weatherproof: withstands rain, heat, & outdoor temperature.
- Durable: Tear-Resistant, Stain Resistant & Grease Resistant.
- Resistance: High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications. Also provides Outdoor Durability

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Thickness:** 8 mils (200 microns)
- **Surface Finish:** Bright White Matte
- **Finish:** Pearl Metallic Finish
- **Print Side:** Both Side Printable

Graffiti METALLIC MIRROR POLYESTER

Available Finish

- Mirror

Available Sizes

- 12" x 18"
- 13" x 19"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 8.0 mil (200 mic)

Packing Specifications

Packet Packing:

50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:

500 Sheets / Carton
(10 Self Closing Pouches)

Graffiti Metallic Mirror is specially coated polyester film with an exceptionally smooth mirror-like surface and provides high reflectivity, brilliant shimmer & unmatched shine. Coated for Digital Toner presses, printable on both sides.

Made of polyester these sheets are made for strength & durability. They are 100% waterproof & Tear-resistant and extremely durable under most extreme conditions. Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses.

Product Benefits

- Produce instant special effects without the need for additional foil stamping or secondary process.
- Deliver eye-catching packaging, greeting cards, marketing collaterals, and more.
- Weatherproof: withstands rain, heat, & outdoor temperature.
- Durable: Tear-Resistant, Stain Resistant & Grease Resistant.
- Resistance: High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications. Also provides Outdoor Durability

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Thickness:** 8 mils (200 microns)
- **Surface Finish:** Bright White Matte
- **Finish:** Mirror Metallic Finish
- **Print Side:** Both Side Printable

Graffiti BACKLIT FILMS

Available Finish

- Translucent White

Available Sizes

- 13" x 19"
- 14.33" x 20.5"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 8.0 mil (200 mic)

Packing Specifications

Packet Packing:

50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:

500 Sheets / Carton
(10 Self Closing Pouches)

Pallet Packing:

10,000 Sheets / Pallet
(20 Cartons)

Graffiti Backlit Film is a white translucent film with 55% opacity, which allows light to be dispersed when mounted on a backlit light box. Ideal for printing backlit signs up to 20" with any Digital Presses.

Made of polyester these sheets are made for strength & durability. They are 100% waterproof & Tear-resistant and extremely durable under most extreme conditions. Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses.

Product Benefits

- White see-through coating provides for high volume printing of backlit signs
- Weatherproof: withstands rain, heat, & outdoor temperature.
- Durable: Tear-Resistant, Stain Resistant & Sweat Resistant.
- Resistance: High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications.
- High-Definition Image Quality: Bright sheets allow high image quality of the finished print job.

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Thickness:** 8 mils (200 microns)
- **Surface Finish:** Bright White Matte
- **Finish:** Translucent White
- **Opacity:** 55%
- **Print Side:** Both Side Printable

Graffiti FROSTED FILMS

Available Finish

- Frosted

Available Sizes

- 8.5" x 11"
- 11" x 17"
- 12" x 18"
- 13" x 19"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 4.0 mil
- 11.0 mil

Packing Specifications

Packet Packing:
50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:
500 Sheets / Carton
(10 Self Closing Pouches)

Pallet Packing:
10,000 Sheets / Pallet
(20 Cartons)

Graffiti Frosted Film is an extruded polyester Film with a frosted look like vellum. Made of polyester these sheets are made for strength & durability.

They are 100% waterproof & Tear-resistant and extremely durable under most extreme conditions. Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses.

Product Benefits

- The frosted See-Through effect of this film provides for unique applications
- Weatherproof: withstands rain, heat, & temperature.
- Durable: Tear-Resistant, Stain Resistant & Sweat Resistant.
- Resistance: High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications.
- High-Definition Image Quality: Bright sheets allow high image quality of the finished print job.

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Thickness:** 4 mil (100 microns) or 11 mil (275 microns)
- **Surface Finish:** Matte
- **Finish:** Frosted (Vellum Like)
- **Opacity:** 15%
- **Print Side:** Both Side Printable

Graffiti CLEAR FILMS

Available Finish

- Clear

Available Sizes

- 8.5" x 11"
- 11" x 17"
- 12" x 18"
- 13" x 19"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 4.0 mil
- 11.0 mil

Packing Specifications

Packet Packing:

50 Sheets / Packet
(Self-Closing Pouches)

Carton Packing:

500 Sheets / Carton
(10 Self Closing Pouches)

Pallet Packing:

10,000 Sheets / Pallet
(20 Cartons)

Graffiti Clear Film is a Clear extruded polyester Film with digital coatings to allow printing with any digital toner press. This optically clear film comes with a SLIP SHEET or with WHITE BAND depending on your requirements, to help this sheet pass through the printer sensor.

Made of polyester these sheets are made for strength & durability. They are 100% waterproof & Tear-resistant and extremely durable under most extreme conditions. Its unique toner receptive coating makes it a universal paper for both dry-toner & liquid-toner presses.

Product Benefits

- The clear See-Through effect of this film provides for unique applications
- Weatherproof: withstands rain, heat, & temperature.
- Durable: Tear-Resistant, Stain Resistant & Sweat Resistant.
- Resistance: High heat resistant, 425° F melting point allows for use in a wide range of laser printers and applications.
- High-Definition Image Quality: Bright sheets allow high image quality of the finished print job.

Product Specifications

- **Base:** P.E.T – Extruded Polyester Film
- **Thickness:** 4 mil (100 microns) or 10 mil (250 microns)
- **Surface Finish:** Gloss
- **Finish:** Clear See Through
- **Opacity:** 1%
- **Print Side:** Both Side Printable

Available Options:

- with Slip Sheets
- with White Band

Graffiti DIGITAL FABRIC

Available Finish

- Arctic White - Matte (Textured)

Available Sizes

- 12" x 18"
- 13" x 19"

Custom Sizes are available. Can be supplied as rolls for converters.

Available Thickness

- 175 g/m2 (8 oz)

Packing Specifications

Carton Packing:
200 Sheets / Carton

Graffiti Digital Toner fabric is an 8 Oz one-sided, matte-coated, smooth textured polyester canvas with a bright white finish.

Graffiti Digital Toner Fabric is an ultra-durable, toner receptive coated fabric that makes for digital printing and provides for vivid color reproductions. It also performs well during print finishing operations such as sewing, cutting, and/or grommetting. It is highly resistant to shrinking and curling and is very resistant to degradation from rot, mildew, and moisture.

Product Benefits

- The smooth textured surface provides a unique look and feels for specific applications.
- The fabric base provides for a soft cloth feel and provides for easy runnability through high-heat digital printers.
- High-Definition Image Quality: Bright sheets allow high image quality of the finished print job.

Product Specifications

- **Base:** Polyester Fabric
- **Base Weight:** 145 g/m2
- **Total Thickness:** 175 g/m2 (8 oz)
- **Surface Finish:** Textured – Arctic White - Matte
- **Print Side:** One Side Only
